

## Exporting from 2020 Version 10 Guide

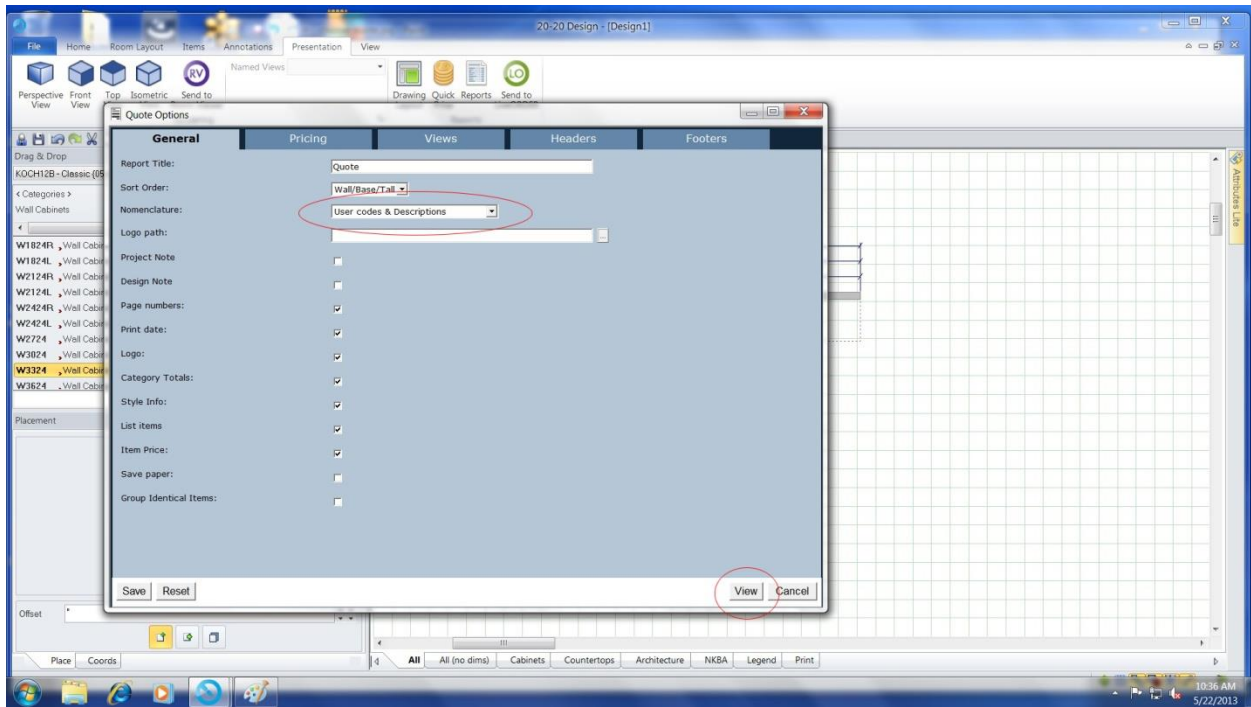

1. Create a design and set your price. Once you are finished you can click on the reports button found at the top of the screen.

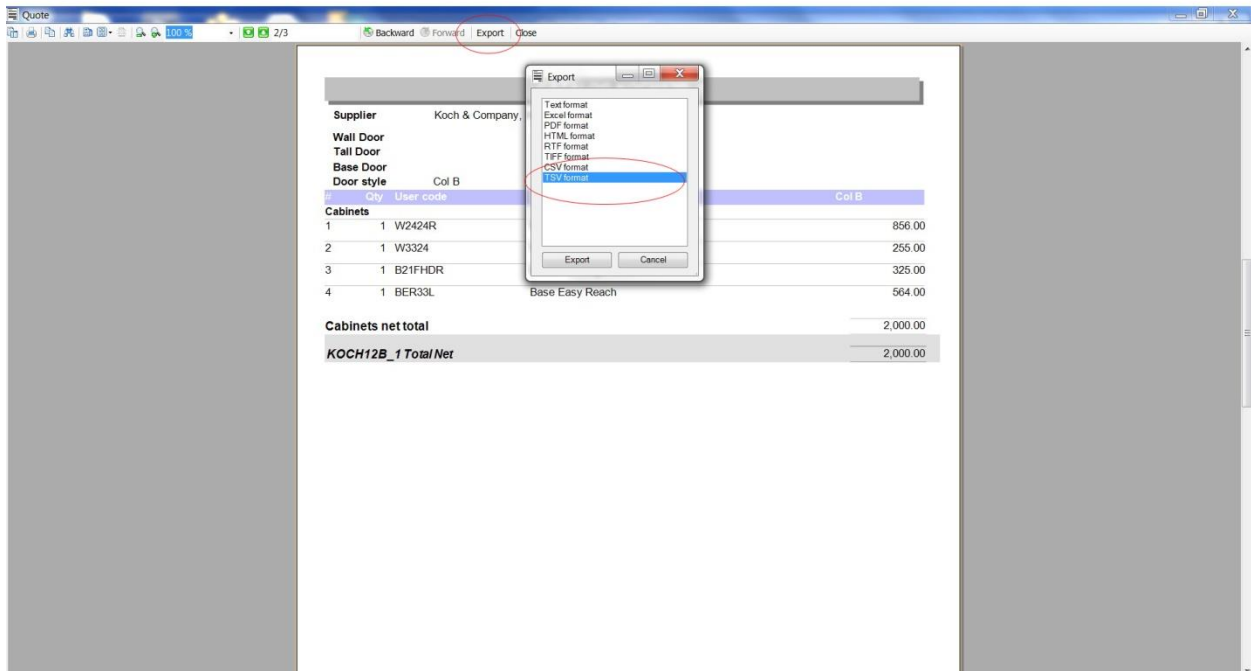

2. Next choose the quote option in the pop up.

3. On the quote options screen set your “Nomenclature” drop down to “User codes & Descriptions”. Click view.

4. Choose export at the top of the screen and select the TSV format from the options.

5. Save to your computer and then import the saved file into Order Express.
