PECAN STAIN ON BIRCH & MAPLE

Your satisfaction is important to us, and we want you to be fully informed about the characteristics of Pecan stain on Maple and Birch.

This stain choice is prone to color variations, resulting in light and dark sections in the cabinetry. The variation can be pronounced and is ideal for rustic settings. This is a feature of Pecan stain on Birch and Maple and is not considered a warranty issue.

Please visit our website (kochcabinet.com) to view kitchen pictures with pecan stain on birch and maple. We would also recommend purchasing a sample door in the door style, wood species and finish that will be purchased for your home, even though one sample door will not accurately portray the variance in a room with multiple cabinets.

I have read the above information and I acknowledge that the color variations that occur with Pecan stain are not considered a warranty issue with Koch Cabinets.
