BIRCH

Your satisfaction is important to us, and we want you to be fully informed about the characteristics of Birch.

Birch is prone to color variations, resulting in light and dark sections in the cabinetry, giving a calico appearance. Birch with wiping stains will not be consistent in color. This is a feature of Birch and is not considered a warranty issue.

Please visit our website (kochcabinet.com) to view doors and kitchens in Birch. We would also recommend purchasing a sample door in the door style, wood species and finish that will be purchased for your home, even though one sample door will not accurately portray the variance in a room with multiple cabinets.

I have read the above information, and I acknowledge that the color variations that occur with Birch are not considered a warranty issue with Koch Cabinets.
