NOTES OR ADDITIONS

Koch Midland

KOCH CABINETS, A DIVISION OF KOCH AND CO., INC., CABINET WARRANTY

LIMITED 5 YEAR WARRANTY

Koch & Co., Inc. warrants to the original consumer purchaser that the cabinet box, shelves, and drawer box will be free from defects in materials and workmanship, under normal use, for five years. This warranty is not transferable. No representative of Koch and Co., Inc. has the authority to modify this warranty.

Warranty Limitations

This limited 5 year warranty does not apply to:

1. Cabinetry installed outdoors.
2. Cabinets that have been improperly installed, cleaned, or maintained.
3. Cabinets not installed in the United States.
4. Defects caused by misuse, abuse, negligence, alterations, environmental conditions, improper installation, normal wear and tear, commercial use, or improper storage and handling.
5. Labor for replacement or removal of cabinets.
6. Midland cabinets should not be mixed with Classic, Imperial, or Express cabinets in a project. Doing so will void any warranty on color issues.
7. Against expansion or contraction occurring as a result of humidity levels being too high or too low. We recommend 35% to 45% relative humidity levels in your home. This warranty will be void if cabinets are stored or installed in environments that do not have properly controlled humidity levels.
8. Damage claims on cabinets stored for longer than 90 days are subject to review by Koch management due to environmental exposure and additional handling issues. Some conditions could void this warranty.
9. Warp: Koch & Co., Inc. has an allowance of 3/16" on any door or drawer front under 24" wide X 45" tall. Any cabinet whose warpage exceeds 3/16" and can not be corrected by hinge adjustment will be replaced by Koch & Co., Inc. after it has been acclimated for 1 year. If doors are removed during installation pay close attention that they are reinstalled on the same cabinet.
10. Finish issues on unfinished cabinets.
11. Unfinished cabinets that are not finished within two weeks of delivery date.

Warranty Disclaimers

1. Wood characteristics that are inherently associated with a wood species. Each wood specie exhibits its own distinctive pattern and characteristics which adds to its natural beauty.

2. Color variations. This warranty does not cover the natural aging and darkening of the wood color, nor does it apply to the inherent growth characteristics of the wood. As with other natural materials, wood is affected by environmental factors such as natural and artificial lighting. Darkening or mellowing of the wood can be expected and is a natural process of wood.

3. From time to time, we will change design, specifications, and materials, as conditions require and improvements are developed, but we have no obligation to incorporate such changes in products we previously manufactured.

Warranty Performance

Koch & Co., Inc. may elect to repair or replace any Koch Cabinet product covered by our warranty. Should defects in material or workmanship exist during this warranty, Koch & Co., Inc. will elect at its discretion to either repair or replace the defective material or component, excluding labor costs. This warranty covers only parts and materials supplied by Koch & Co., Inc., and does not cover costs for removal or installation of counter tops, plumbing fixtures, appliances or related materials, or labor costs. Natural and environmental factors will affect cabinet products over time: therefore, Koch & Co., Inc. cannot be responsible for replacement products that may not exactly color-match installed product.

Some states do not allow exclusions or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply. This warranty gives you specific legal rights, and you may also have other rights.

The Midland Series is designed to be an entry level/stock cabinet line and may have slight imperfections that will be visible. This is an acceptable characteristic of this economical line and will not be a reason for replacement.

This warranty is in lieu of all other warranties expressed or implied.

KOCH POLICY AND PROCEDURES

ORDERS: Please send orders via Order Express. Orders are assigned a work order number the same day they are received. Orders received after 2:00 pm will be logged in the next business day. We do not accept orders over the phone. 2:00 p.m. central time is the cut off time for order entry.

ONCE YOUR ORDER IS PLACED, THERE CAN BE NO CHANGES.
CONFIRMATION WILL BE SENT WITHIN 24 HOURS AND THE ORDER IS RELEASED TO OUR PRODUCTION TEAM.

PROJECT LEAD TIMES: Project lead times are 6 weeks. Projects of over 200 cabinets that need different size cabinets than what are offered in spec book will be considered. Contact Amy for pricing (amyb@kochcabinet.com).

SHIP LOG: A ship log will be e-mailed to you on a weekly basis. This log will give you an estimated ship date on cabinet orders that we have received.

SHIPPING: Any questions about shipping, truck schedules, requirements, etc. need to be directed to the shipping department. Call them at 866-739-5624 or by email at shipping@kochcabinet.com

ALL JOB SITE DELIVERIES MUST BE PRE-APPROVED, IN WRITING, BY SHIPPING DEPARTMENT.
KOCH AND COMPANY REQUIRES DEALERS TO HAVE A WAREHOUSE OR A DELIVERY SERVICE THAT WE CAN DELIVER TO.

KOCH & COMPANY WILL NOT DELIVER TO ANY LOCATION THAT DOES NOT HAVE A DEALER (OR AN AUTHORIZED REPRESENTATIVE OF THE DEALER) TO INSPECT AND SIGN FOR THE CABINETS.

DEALER LOCATION DELIVERY IS A SERVICE THAT REQUIRES DEALERS TO BE RESPONSIBLE FOR THE FOLLOWING:
1. DEALER IS TO PROVIDE THE ASSISTANCE OF AT LEAST TWO PEOPLE TO UNLOAD THE TRUCK.
2. A REPRESENTITIVE OF THE DEALER MUST INSPECT THE CABINETS AS THEY ARE UNLOADED AND SIGN THE PACKING SLIP. ANY DAMAGE OR MISSING ITEMS MUST BE NOTED ON THE PACKING SLIP.
3. MAKING SURE THE DETAILED MAP SENT HAS A ROUTE THAT IS ACCESSABLE FOR THE TRUCK. THIS INCLUDES MAKING SURE OF BRIDGE CLEARANCE, WEIGHT RESTRICTIONS FOR BRIDGES OR ROADS, AND THAT THERE IS NOT ROAD CONSTRUCTION THAT WILL HINDER THE DELIVERY OF CABINETS.

IF ANY CONDITION, AT THE DISCRETION OF THE DRIVER, IS UNSAFE AND THE CABINETS CAN NOT BE DELIVERED, THEY WILL BE RETURNED TO THE FACTORY. DOUBLE FREIGHT CHARGES WILL BE APPLIED AND THE SCHEDULED RE-SHIP DATE WILL BE BASED ON THE TRUCK SPACE AVAILABLE.

THERE WILL BE A MINIMUM $200 RE-ROUTING CHARGE FOR ALL ORDERS WHICH HAVE THIER DESTINATION CHANGED BY THE DEALER AFTER THE TRUCK IS LOADED OR IN TRANSIT.

THERE WILL BE A MINIMUM CHARGE OF $200 IF THE TRUCK HAS TO SIT FOR MORE THAN AN HOUR PAST THE SCHEDULED DELIVERY TIME WITHOUT SOMEONE STARTING TO UNLOAD IT.

RUSH POLICY: Rush orders will have a $40 per box charge. There is a limit of 3 cabinets per rush order. When you check the rush box on your cover sheet this charge will show up in your confirmation. Any order over three boxes will not be considered for our rush program.

Rush orders will be ready to ship in approximately 10 working days and will be shipped on the first available truck. Shipping date will depend on your truck schedule. If you decide to ship FED-EX or LTL those charges will apply. These charges can vary in price but will exceed $125 depending on location of delivery.

No changes are allowed on rush orders after they have been confirmed. Work is started on the order as soon as it has been confirmed so that we can deliver it to you on time. Once the work has started it can not be stopped.

SEVEN STAIN CHOICES: Cashew, Espresso, Fawn, Natural, Nutmeg, Pebble, and Saddle

NINE PAINT CHOICES: Arctic, Dusk, Evergreen Fog, Graphite, Naval, Oyster, Shoji White, Slate Blue and Taupe

PRINTED ENDS: Please review the table on Page 3 or review Midland End Options on Page 10, Heartland End Options on Page 11 and Hybrid End Options on Page 12.

OVERLAYS: Available in Standard and Modified Full Overlay.

KOCH POLICY AND PROCEDURES

MAPLE WOOD SPECIES

Maple is a smooth, even grained wood that may contain: narrow staves, sapwood, heartwood, and all other natural characteristics commonly found within this species.

RUSTIC MAPLE WOOD SPECIES

Maple is a smooth, even grained wood that may contain: narrow staves, sapwood, heartwood, and all other natural characteristics commonly found in wood. Rustic Maple has more color variation, burls and knots than standard Maple to give cabinets more character.

PAINT GRADE - HD

Our Paint Grade is HDF, a high density fiberboard which is a composite material that is made from recycled wood fibers and resin. HDF is machine dried and pressed to produce dense sheets of material that stands up well to changes in heat and humidity. HDF is a smooth, even product that is specifically intended for a painted finish.

FINISHES

Cabinets receive a coat of non wiping stain, one coat of self sealing conversion varnish, and a top coat of conversion varnish.

PAINTS

On wood products movement is typical due to changes in the climate conditions. This will cause the hairline cracks at the stiles, rails, and joints that you will see in a painted finish. Panel shrinkage may also occur in the door panel of your cabinetry. Over time there may be a slight color change in this finish due to exposure to natural and artificial light. These items listed above are natural occurrences in the wood and will not be considered a defect or reason for replacement by Koch Cabinets.

FINISHING PROCESS

1. Doors and drawer fronts are sanded through a wide belt sander followed by an orbital sander.
2. They are hand sanded and inspected.
3. Stain is applied to both sides.
4. Doors and fronts have a coat of self sealing conversion varnish applied and are oven cured one side at a time.
5. They are hand seal sanded and brushed clean of sealer dust.
6. They have a top coat of conversion varnish applied and are oven cured one side at a time.

STACKED CABINETS

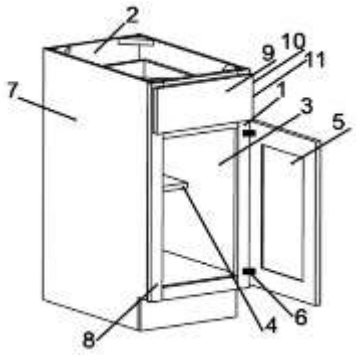

When stacking two cabinets together, we want you to be aware they may not be exactly the same width, and that the two rails that join them together might not be a perfect fit. When working with wood products, you can expect variances.

If two separate cabinets are used for a 'stacking' setup and if there are an issues with the fit, it will not be considered a defect and will not be reason for replacement.

Blind Base and Wall - door overlaps blind side 1/2".

CABINET CARE

INTERIORS:
The interiors of the Koch Cabinets are surfaced with a Maple grained print that resists most stains, scuffs, and mars.

CLEANING:
Koch hardwood exteriors have a high quality finish on the wood that brings out its full beauty. We recommend cleaning the interior and exterior of your cabinets once a month with a clean damp sponge or cloth. If a spill occurs, it is important to clean up the spill and dry the surface right away.

A spill left unattended will soak through the Maple print and cause damage. We do not recommend using paper towels because of their abrasiveness. To remove food residue or grease, use clean suds with a mild soap and water mixture. Do not use cleaners that have any abrasive additive, bleach or ammonia. These cleaners will cause damage to your cabinet finish. Dishcloths used for other cleaning should never be used as they could contain remnants of harsh chemicals or grease.

Following cleaning, wipe all excess moisture off the cabinet fronts and door backs.

CAUTION
The most common form of damage done to cabinetry during normal maintenance is over scrubbing of the finishes, especially the edge profiles.

Excess moisture can damage any cabinet finish. Areas near the sink, dishwasher, range, oven and baseboards are the most susceptible. Keep these areas dry.

Koch Cabinets have a high quality varnish finish and waxing is not necessary. Furniture polish may be used if waxing is preferred. Make sure to wipe off any excess polish to avoid build-up.

COLOR VARIANCE:
Colors of all products change as they age. Various wood species will react in different ways depending on their exposure to the sun as well as the environment they are located in.

STAIN BLOCK AND SAMPLE DOOR EXPIRATION:
A sample block will not show the full range of color and grain variations. We recommend you view a door sample or a full cabinet display before making your final selection. Koch Cabinets will not replace or refund cabinets because of variations in color or wood grain from a sample block. All stain blocks and sample doors have a date on them. It is our recommendation that they be replaced when that date is more than 2 years old.

FURNITURE FINISH:
All finishes are glossier when freshly finished. The gloss level will tone down after approximately 6 months, depending on the environmental exposure.

CABINET DOOR BACKS:
Door backs will not be finished to the same level of artistic detail as the front. They will have the same blending color and durability as the front of the door. Please have door samples for your customers to view.

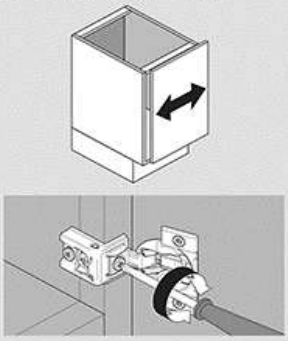

HARDWARE ADJUSTMENTS

DOOR ADJUSTMENT DIRECTIONS FOR BLUMOTION HINGE

Three-dimensional adjustment

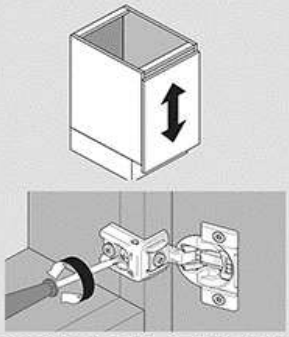

Side adjustment

Rotate the front cam screw to increase or decrease door overlay (+/- 1/16").

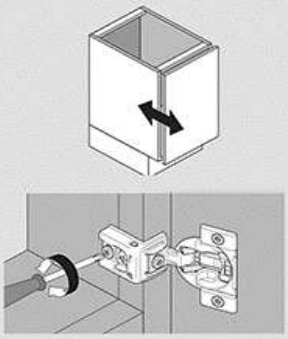

Height adjustment

Loosen installation screws to adjust door position (+/- 1/8"), then retighten.

Depth adjustment

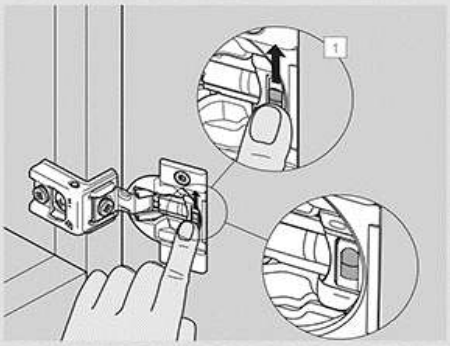

Rotate the rear cam screw to adjust door gap (+ 3/32", - 1/32").

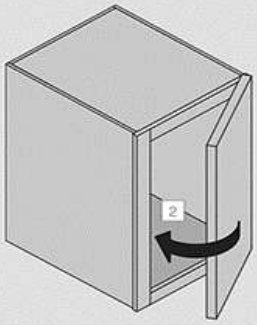

BLUMOTION DEACTIVATION

Switch on the hinge cup

For small or light doors, the BLUMOTION can be deactivated on one of the hinges. COMPACT BLUMOTION comes in the activated position, marked with a "I". The deactivated position is marked with a "0".

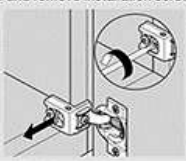

Door must be closed once for the deactivation to be complete. To reactivate, move switch back to the original position "I".

COMPACT BLUMOTION ANGLE RESTRICTION CLIP - ASSEMBLY INSTRUCTIONS

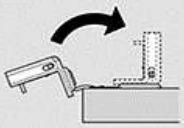

Step 1 — Remove door

Loosen and remove installation screws.

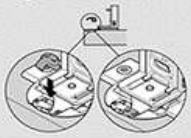

Step 2 — Rotate hinge arm

Rotate hinge arm to closed position.

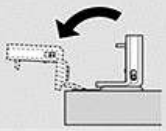

Step 3 — Insert angle restriction clip

Insert angle restriction clip (38C315B3) into base of hinge arm and secure.

Step 4 — Rotate hinge arm

Rotate hinge arm to open position.

Step 5 — Reattach door

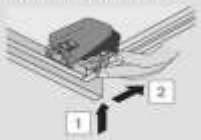

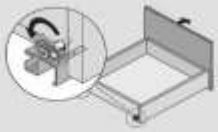

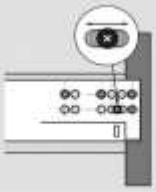

Align door and reattach by inserting and tightening installation screws.

HARDWARE ADJUSTMENTS

TANDEM plus BLUMOTION — 563H/563. Installation Instructions
